

MOVE UNITED INCLUSION CHAMPION

At Move United, we use the power of sport to push what's possible for people with disabilities, fueling conversation, and inciting action that leads us to a world where everyone's included.

The Inclusive Playbook is a foundational building block to ensure all youth have an equal opportunity to participate in sports and recreation in their schools and communities.

Move United's Inclusive Playbook is geared toward elementary school students and will help bridge the gap between individuals with and without disabilities at a young age through conversations, dialogue and activities.

To support the implementation of this material, Move United also created an instructional guide with lesson plans, activity worksheets, and additional resources geared for youth. Students will also be able to experience the power of adaptive sport through Move United's virtual reality videos and goggles.

We believe in a world where every person, regardless of ability, is included in sport. The Inclusive Playbook is free for all that want to engage in this important conversation to change the narrative around disability.

JOIN THE MOVEMENT

The Inclusive Playbook not only fuels conversation, it brings people together as part of this movement – reviewed by over 50+ adaptive sports professionals and educators across the United States, the Inclusive Playbook was beta tested with children across various age groups to make sure it lives up to its name.

In addition to the creation of the Inclusive Playbook, Move United announced a call to action for organizations to become *Inclusion Champions* – groups across the youth, sports and education landscapes who support this educational tool and champion the values of inclusion, equity, diversity and access across all communities.
